Industry Experience

Freelance | User Researcher

SF Bay Area 11/2018-present

- > Collaborating with clients to scope, plan, and execute complex qualitative user research projects
- > Delivering insights reports, opportunity spaces, and user profiles to inform product strategy
- > Projects have spanned health and wellness apps, technology for social good, and the adoption of open-source software

Punchcut | User Researcher (contract)

San Francisco, CA 7/2019-9/2019

- > Planned, designed, and executed generative and evaluative user research for multiple clients
- > Created research plans, project schedules, participant screeners, interview guides, and insights reports

UC Berkeley Center for Technology, Society, and Policy | Industry Research Fellow

SF Bay Area 10/2015-10/2016

- > Conducted user interviews, ethnographic observation, and social media content analysis in Oakland, CA in order to understand and positively influence civic engagement on Nextdoor.com

Perforce Software | UX Designer

Alameda, CA 3/2015-4/2016

- > Led formative user interviews and remote usability sessions for Helix Cloud—a web interface for storage, collaboration, and communication amongst programmers and designers
- > Presented research findings across many layers of the company, including cross-disciplinary team members, the UX group, and executive leadership
- > Produced workflow diagrams, user interface designs, and lightweight prototypes for user testing

IBM | UX Designer

Emeryville, CA 12/2013-3/2015

- > Managed the user feedback program for a web-based endpoint management tool for IT professionals
- > Produced interactive prototypes and high-fidelity designs, and tested them during remote user feedback sessions

Boeing | User Research Lead

Pittsburgh, PA 1/2013-8/2013

- > Planned and led contextual inquiry at Boeing's Everett Factory through CMU's Master's Capstone Project
- > Planned and led three user testing trips—including concept validation, low fidelity prototype testing of multiple solutions, and high fidelity prototype testing of an interactive, immersive room for self-expression and wellbeing
